By virtue of our March 1993 Test, JFG considers this well to be economical & capable of production in paying quantities. Our partner in this venture has a well that will be put in production. They are working on obtaining a ROW from the BLM. After visiting with Adrian Garcia and Shannon Shaw we think it is feasible to do this. Our visit was 7-21-93. We are requesting 6 months to get our pipeline layed and on Production without doing Production Testing or Casing Integrity Test. Sending copies of TOPO map to indicate wells involved.
