Attn: Mr. Gary Gourley  
2909 West Second Street  
Roswell, New Mexico 88201

Dear Mr. Gourley,

It has come to my attention that I have filed completion forms for a well that had been recompleted in the Atoka formation as being in the Indian Basin Morrow Gas Pool. I was under the impression that the Atoka formation in the Indian Basin area was a part of the Morrow reservoir. I called Tim Gum, District Manager of the Oil Conservation Division in Artesia to confirm this, and He told me that the Atoka is not a part of the Morrow reservoir, and that I needed to send in corrected completion forms. Attached you will find the corrected completion form, 3160-4, for the Indian Hills Unit Well No. 6 Atoka completion along with the corrected sundry notice and a copy of the sundry notice that was originally sent in.

Please let me know if I need to turn in any other forms to get your records on this well corrected. Thank you for your help and understanding in this matter.

Sincerely,

A handwritten signature in cursive script that reads 'Ginny Larke'.
