If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Due to economic conditions with gas purchaser, Yates Petroleum Corporation has been required to lay gathering lines and set allocation meters at each well that produces into a common line. We request approval to commingle Yates' Eland AFC Federal Com #1 well with our Slinkard UR Federal #1, located SE/NE, Section 11-T20S-R29E and our Slinkard UR Federal #2, located SE/NW, Section 11-T20S-R29E and our Anthill AAK State #1, located SW/SE, Section 2-T20S-R29E, prior to our measurement for sales for marketing our gas. The sales point is located at Section 9-T20S-R29E.

Yates Petroleum Corporation conducts quarterly calibration tests on meters. Yates' will furnish the BLM with dates if requested by the BLM.

Transwestern Pipeline Company conducts quarterly tests on TW's meters and semi-annual gas analysis tests.
