Re: Roaring Springs Fed. Com. #1  
E-14-21-23 Eddy County, NM  
Southeast New Mexico Packer Leakage Test

Dear Mr. Williams:

Pursuant to your letter of September 15, 1989, I am responding with this letter for your approval for an extension on the above referenced test. The Roaring Springs Fed. Com. #1 Well has had a workover unit on location for the past few weeks. We are still doing work on it at this time, therefore, we are asking for an extension. If there are any problems with this, or if you have any questions, please give us a call.

Sincerely,

  
Debbie Coughran
