

MULTI-POINT SURFACE USE AND OPERATIONS PLAN  
The Petroleum Corporation of Delaware  
Superior Federal Well No. 7  
Section 5-T20S-R29E  
Eddy County, New Mexico  
(Development Well)

The plan is submitted with Form 3160-3, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effects associated with the operation.

It should be noted that the subject well will be drilled on the same drilling pad used for drilling the Superior Federal Well No. 5. The proposed well will be approximately 150 feet west and 20 feet south the No.5 well and will be accessed by the existing roads.

1. Existing Roads.

A. Exhibit A is a portion of BLM quad color map No. SE-24, on a scale of 1/2 inch to a mile, showing the area of the proposed wellsite and the roads leading to the drillsite. The location is situated approximately 16 miles northeast of Carlsbad, New Mexico, via the access road shown in red. directions to the location are as follows:

1. Starting at La Caverna Motel at the intersection of highways 285 and 62/180 in Carlsbad, proceed east on highway 62/180 for 8 miles.
2. Turn left (north) onto a black top road. (There is a "Superior Oil Co., Govmt. D. Com. #2" sign at this point.)
3. Continue north for approximately six miles. At this point the paved road curves to the left. Leave the paved road and turn to the right (east) onto a dirt road.
4. After approximately 1.4 miles you will pass caliche pits on your left. Continue approximately 0.3 miles beyond the caliche pits.
5. Turn left (north) for a total distance of approximately 2-0 miles, passing two windmills and water tanks en route and continuing north to Texas Oil & Gas Corp., Williamson Federal #1, SW/4, NW/4, Section 9-T20S-R29E.
6. From this well, continue in a northerly direction through a cattle guard after 0.3 miles. Approximately 0.2 miles beyond the cattle guard is The Petroleum Corporation, Superior Federal Well No. 3, SW/4, NW/4, Section 4-T20S-R29E. Leaving from the northeast corner of the well pad, continue over and then down a slope in a northwesterly direction for approximately 0.2 miles to the Superior Federal No. 4 Well and then an additional 0.5 miles to the well site.
