SURFACE USE PLAN

Phillips Petroleum Company, <u>Peak View Lease</u> , Well No. <u>4</u> , <u>2030' FEL & 2030' FSL</u> , Section <u>35</u> , T- <u>21</u> -S, R- <u>30</u> -E, <u>Eddy</u> County, New Mexico. (Fed Lease No. NM 70333			
This plan is to accompany "Application for Permit to Drill" the subject well which is located approximately 20 miles west of Carlsbad. New Mexico. The following is a discussion of pertinent information concerning the possible effect which the proposed drilling well may have on the environment of the well and road sites and surrounding acreage. A copy will be posted on the derrick floor so that all contractors and subcontractors will be aware of all items of this plan.			
1.	Existing Roads		
	Α.	Runs east and west, south of proposed location	
2.	<u>Planned Access Roads</u>		
	Α.	To run north to south to drilling pad	
	B. C. D. E. F. G.	Turnouts: None Drainage Design: Centerline to sideline slope Culverts, Cuts and Fills: None Surfacing Material: Caliche well pad and roads. Gates, Cattleguards, Fences: None Proposed Road: The proposed road is centerline staked.	
3.	Locat	tions of Existing wells: None	
4.	Locations of Tank Batteries, Production Facilities, Production Gathering, and Service Lines: None Flow line from Well No. 4 to run alongside proposed access roadway.		
5.	Water Supply Source: Hauled		
6.	Sour	Source of Construction Materials	
	A. B.	Caliche for surfacing the new road and well pads will be obtained from Federal Pit in Section 11, or from on site location Caliche pit is located on Federal Pit in Section 11	

7. Methods for Handling Waste Disposal

Will be put in trash trailer. If well is productive, maintenance waste will be placed in special trash cans and hauled away periodically. All produced water will be collected in tanks until hauled to an approved disposal system, or separate disposal applications will be submitted for appropriate approval.
