13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

We are changing the operator's name from Santa Fe Energy Operating Partners, L.P. to Santa Fe Energy Resources, Inc.

This well was approved as a vertical well, we plan to directionally drill this to a standard bottomhole location of 660' FNL & 1980' FWL of this same section. We are directionally drilling this well due to the topography of McGruder Hill. We plan to kick-off at approximately 8,000' and build 1600' of displacement to reach the desired bottomhole location.

Attached is a detail listing of our directional plan and a copy of NMOCD Administrative Order DD-106 which approves our request for authorization to directionally drill this well.

We plan to spud this well prior to April 1, 1995 in order satisfy lease suspension requirements.

14. I hereby certify that the foregoing is true and correct
