Dear Alexis:

I was in the process of filing a Sundry notice for a workover on the Indian Hills Unit Well No. 11 when I noticed that a complete 3160-4 form had not been filed on the well. Due to plant capacity constraints, this well was shut in and didn't produce for two (2) months after it was initially completed. I had filed the completion forms minus test data at that time, but apparently never filed the completed form after the well finally started producing. I am attaching the amended completion (3160-4) form to this letter for your convenience.

If you have any questions or need any other information, please feel free to call me at 915-687-8432.

Sincerely,

A handwritten signature in cursive script that reads 'Ginny Larke'.
