13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The above (2) two wells are producing formation water from the Delaware Bonea springs and Delaware upper sandstone respectively and at a rate of 20 bbls/day and 10 bbls/day respectively. The produced water is pumped to location from each well and stored in a 210 bbl open top fiberglass tank (with fuel netting) and from there it is pumped to our Government "D" Saltwater Disposal system where it is then pumped into our disposal wells Government D #1 & Government "D" 4 SWD. Refer to Case Serial # NM-94378 for trade of Disposal lines to our system. 3.5 miles. NMOCB Permit #'s ARE D-1 SWD-579 & D-4 SWDR-8274. See attached Water Analysis per wells.
