13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work.) SEE RULE 1103.

Because of increasingly difficult air drilling conditions (water flow combined with lost circulation), Devon Energy Corporation (Nevada) request permission to again amend surface hole and casing requirements for this well. It is requested that instead of drilling 14 3/4" hole to TD ($\pm 2,000$ if possible) we be allowed to drill 12 1/4" to TD and then open the 12 1/4" hole to 14 3/4" to a depth of 600' or deeper. If drilling conditions prevent air drilling 12 1/4" hole to 2,000' then we also request permission to set 9 5/8" surface pipe at 1,500' or deeper.

I have already received verbal approval from Bryan Arrant on both of these issues (12/18/98).

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
