(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

It is proposed to dual complete the existing well bore.
Please find enclosed the schematic showing perforated intervals in the Upper Penn which were previously tested before completion was established in the Morrow Sand. Please note that there will be no bottom hole or surface commingling of the two field designations.
7" casing was set in anticipation of potential Upper Penn gas pay.

NMOCD Form C-107 has been filed with State of New Mexico Oil Conservation Division in Artesia.
