(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Devon Energy Corporation (Nevada) requests permission to increase the setting depth of this well's 9 5/8" surface casing string from 1,200' to 2,000'. This increased depth will allow us to cover additional lost circulation zones which have been drilled through by other rigs operating in the area. Cement will be brought to surface on the 9 5/8" string.

Verbal Approval Granted 09-01-98: D.R.G.

14. I hereby certify that the foregoing is true and correct
