This well is currently being pumped with a gas engine using casinghead gas and produces 8 bopd. The volume of gas to be vented is too small to measure. The nearest pipeline connection point is 2.4 miles. The cost to connect the well for gas sales is estimated at \$75,000 and is not economical. Permission to vent this gas is requested for the period December 1, 2000 and December 1, 2001.
