13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

On the APD approved 4/22/02 we had proposed to set 20" conductor at 40'; 13-3/8" @ 600', 9-5/8" @ 2800' and 7" @ 13000'.

We now propose the following:

20" conductor and 9-5/8" surface will remain the same as originally proposed.

9-5/8" will be J-55 40# instead of the proposed K-55 36# and will be set at 2780' instead of 2800'.

7" will be set at 12000', instead of the 13,000' approved; grade, size and wt are the same as originally proposed.

Drill a 6-1/8" hole from 12,000' to TD and set 4-1/2" L-80 13.50# liner from 11,800' to 12800' w/135 sx Class H Poz.

Everything else on the original APD will remain the same.

14. I hereby certify that the foregoing is true and correct
