LOG OF OIL OR GAS WELL

LOCATE WELL CORRECTLY

Company Joseph I. O'Neill, Jr. Address 410 W. Ohio, Midland, Texas
Lessor or Tract Federal "D" Field Black River State New Mexico
Well No. 1 Sec. 11 T. 24S R. 26E Meridian NMPM County Eddy
Location 2310 ft. ^[N.] of 1 Line and 2310 ft. ^[E.] of 2 Line of Sec. 11 Elevation 3291'
(Derrick floor relative to sea level)

The information given herewith is a complete and correct record of the well and all work done thereon so far as can be determined from all available records.

Signed Roy L. Blanton (Roy L. Blanton)
Title Production ClerkDate March 3, 1958

The summary on this page is for the condition of the well at above date.

Commenced drilling Feb. 1, 1958 Finished drilling Feb. 11, 1958

Amanda Hall is currently being treated for drug addiction at a local clinic.

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or testing.

The elevation of the ~~ground~~ ground above sea level is 3282.9 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Proposed to drill above listed well to an approximate TD of 2100' with rotary tools for completion in the Delaware Sand.

Set 200' of 8 5/8" OD New 2 1/2" J-55 ST&C Hole Casing and cement to surface with approximately 200 sacks cement. Hole size to 200' or depth of 8 5/8" casing will be 12 1/4".

Drill 7 7/8" hole to TD of 2100' and set 5 1/2" OD 1 1/2" J-55 ST&C AT TD and cement with approximately 175 sacks cement.

Perforate Delaware Sand sandoilfree, run 2 1/8" tubing and complete.

Drilling contract has not been awarded at this time.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
