Change of Plans X Notice of Intent Abandonment New Construction Recompletion Non-Routine Fracturing Subsequent Report Plugging Back Casing Repair Water Shut-Off Final Abandonment Notice Altering Ceeing Conversion to Injection X Other Compressor install Dispose Water n Report and Log form.) 13. Decribe Proposed or Completed Operations (Clearly state all pertinent details, and give partinent dates, including estimate date of starting any proposed work. If well is directionally drilled.

TYPE OF ACTION

give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Chevron submits for your approval the installation of a rental compressor on the subject well to increase the gas production. The reciprocating compressor will be powered by an 80 horsepower internal combustion engine. The unit will be utilized for approximately one year and will not be installed permanently. The packaged unit will also be mounted on a structural steel skid surrounded by an ecology basin to contain fluid leaks and minimize environmental damage. It will be located on the existing well site and will not require additional surface disturbance. Enclosed is an updated process flow diagram.

> RECEIVED JUL 07 1995 OIL CON. DIV. DIST 2

14. I hereby cartify that the fosforing is true flid correct Signed R. C. H. L. L.	Title	Sr. Facilities Engineer	Date May 30, 1995	-
