Re: HMH Operators

Pardue #1-M 12-238-27 Cass Draw-Delaware

Attached C-104 indicates the transporter name  
should be changed to Scurlock Oil Co. but C-112  
reports for Permian still include subject well  
in their report of December; C-115's show Permian.  
Please check and advise which is correct.

Thanking You,
