Gentlemen:

The subject well was plugged and abandoned June 7, 1969. Please be advised that certain forms are now required and that the well location must be restored as noted below:

1. Three copies Form C-103 to be filed showing all plugging operations including, size & depths of plugs, type of fluid left in hole, casing left in hole and dates work performed.
2. The location must be restored as follows: All junk, tubing, pump base etc. must be removed or buried. Fill the cellar and pit and level the location.

Your cooperation in the early completion of these items will be greatly appreciated.

Very truly yours,

OIL CONSERVATION COMMISSION
