~~XXXXXX~~

April 20, 1931

Mr. W. M. Keck,
1100 National City Bank Bldg.,
210 South Spring Street,
Los Angeles, California.

Dear Sir:

This is in reply to your letter of April 1st with reference to the abandonment of the Keck Community Well No. 1, Sec. 33, T. 23 S., R. 28 E.

After giving the matter further consideration, we have decided to consider this well permanently abandoned as soon as a minor amount of additional work is done. This work consists of filling the top of the cellar with cement and leaving a good marker. Mr. Jas. P. Sullivan, State Oil and Gas Inspector at Hobbs is giving this matter his attention and as soon as the work is completed, we will advise you that the bond in question can be cancelled.

Very truly yours,

E. H. Wells,
State Geologist
