Eddy County, New Mexico

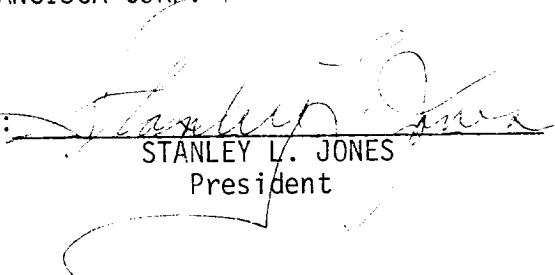

Gentlemen:

Received your letter as of today dated July 1, 1970, addressed to Mr. George Hatch, Oil Conservation Commission, P. O. Box 2088, Santa Fe, New Mexico.

I enjoyed the visit while I was there in Artesia with you, and I left instructions for the well to be capped properly and the trickle of salt water to be shut off. I do not understand why they did not follow through with this procedure. As you know, I had the flu while I was there and was unable to do this work myself. But I had paid these people to do this work and now I understand they have failed to follow through. I will be in New Mexico some time this week, and at that time I will see to it personally that proper valves are installed to prevent the water leak. I am sorry this happened. Will see you soon.

Very truly yours,

FRANCISCA CORP.
