Dear Sir:

In regard to your note of exceptions for the plugging of our James and Landrum Unit # 1, Section 13, T-24-S, R-28-E, Malaga Pool, Eddy County, New Mexico, we wish to say that we did put mud laden fluid between the cement plugs, but failed to include this on our report of plugging.

If a new report is required please advise.

Yours very truly,

DEKALB AGRICULTURAL ASSN., INC.
