RECEIVED

MAY 16 1967

Attn: Mr. R. L. Stamets, Geologist

D. C. C.
ARTESIA, OFFICE

Gentlemen:

We are in receipt of your correspondence of March 29th and May 8th concerning the Jurnigan Point Unit Well No. 1. We regret that we have not been able to intelligently answer your letter until now due to the complexity of the unit agreement.

Upon receipt of your March 29th letter, we polled the unit members by mail and are slowly receiving answers from them. This matter will be better discussed with you in person, and we will ask Mr. R. L. Rutledge, Division Engineer for Delta Drilling Company, to contact you immediately and arrange an appointment wherein he can discuss the entire matter with you. It goes without saying that we are concerned about the leakage from this well, and have had our Production Foreman on two intervals check this leakage inasmuch as your engineer directed the plugging and considerable money was expended to this endeavor, we feel that the discussion is in order.

Yours very truly,

DELTA DRILLING COMPANY

E. G. Durrett
Vice President

*Mr. Rutledge here 5-18-67.
Said they were looking for help
from old unit partners. Should
be ready to go in 30-45 days.*
