Gentlemen:

This is to confirm our telephone conversation of March 31, 1967 in which we requested that we be allowed to transport 750 barrels of produced condensate from our Forni #1 Well, Eddy County. This condensate is being produced while testing and will be transported by Scurlock Oil Company.

*Wolfcamp #3 9656-9946*  
The verbal permission was requested in case we did not have enough storage to hold over the weekend but the well only produced approximately 140 barrels of condensate after flowing back acid water and is now continuing to test.

Yours very truly,

UNION OIL COMPANY OF CALIFORNIA
