Dear Mr. Williams:

An inspection of the subject well November 16, 1970, indicated that a small volume of salt water had apparently come up around the wellhead and run a short distance across the location. At the time of inspection, there was no waterflow.

This office would be most appreciative of a brief report on this matter.

If there are any questions on this matter, please do not hesitate to call upon me.

Very truly yours,

OIL CONSERVATION COMMISSION
