South Carlsbad-Strawn
Gas Pool, Eddy County
New Mexico

Dear Mr. Sivage:

This office is in receipt of Form C-122, Multi-Point Back Pressure Test, for the subject well. The test, however, does not appear to have been run in compliance with The Commission Manual for Back-Pressure Testing of Natural Gas Wells dated January 1, 1966, nor was it submitted on the latest report forms. Therefore, a new test must be taken and the results submitted on the appropriate forms.

The test manual is available from our Santa Fe office. Forms are available from both the Santa Fe and district offices.

If there are any questions on this matter, please do not hesitate to call upon me.

Very truly yours,

OIL CONSERVATION COMMISSION

Dear Mr. Givens:

This office is in receipt of Form G-22, Initial Point Test Pressure Test, for the subject well. The test, however, does not appear to have been run in accordance with the Commission Manual for Gas Pressure Tests. The Water Gas Well - Gas Test, January 1, 1958, was submitted in the latest report. Therefore, a new test must be run and the results submitted on the appropriate forms.

The test manual is available from our Bureau by order. Forms are available. Also, the State is authorized to order.

If there are any questions on this matter, please advise by return mail.

Very truly yours,
