Re: Exception to O.C.C. Rule 112-A-VIC and Rule 402
Pennzoil's - Mobil "12" Federal No. 1 and
Gulf Federal No. 1
South Carlsbad Morrow and South Carlsbad Atoka Pools
Eddy County, New Mexico

Dear Bill:

This letter is to confirm our telephone conversation today, June 24, 1974 in which you granted permission to delay the running of the annual shut-in pressure test on the Mobil "12" Federal #1 and the Gulf Federal #1, and the annual packer leakage test on the Mobil "12" Federal #1. Both of the required tests will be run in the latter part of October.

This delay is requested so that we may evaluate the performance of these wells while using a compressor to lower the well head pressures.

You will be notified of the time when the test will be run.

Thank you for your attention on this subject, I am,

Yours very truly,

PENNZOIL COMPANY
Western Division

J. C. Raney
Petroleum Engineer
