Bottom Hole Pressure taken in February 1971 Indicated that well had experienced pressure depletion and that it is not commercial. It is proposed to set a cast from bridge plug at 10,5891 and to dump 3 sacks of cament on top of the bridge plug. Verbal permission for this procedure received March 2, 1971 from Mr. W. A. Crassett. Artesia Office, OCC. After this partial plugging has been completed, this well will be turned over to Samedan OII Corporation for final plugging.	NOTICE OF INTENTION TO
