NEW MEXICO OIL CONSERVATION COMMISSION
ARTESIA, OFFICE
PACKER SETTING REPORT

I, Kenneth F. Smith, being of lawful age and having full
Name of party making report
knowledge of the facts hereinbelow set out do state:

That I am employed by Corinne Grace in the capacity of
Petroleum consultant, that on July 21, 1973

I personally supervised the setting of a Gilbertson Sealpacker VI
Name & type of packer

in Corinne Grace Humble-Grace
Operator of well *Lease name*

Well no. 1 located in the South Carlsbad Morrow field,

Eddy county, state of New Mexico at a subsurface depth of

11530 feet, said depth measurements having been furnished me by

my tubing measurements

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the communicating, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer is properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

Kenneth F. Smith
