Dear Miss Jones:

On July 27, 1973, Form C-103 Notice of Intention to perform Remedial work on the subject well was approved. Said notice showed plan to pull tubing and packer, perforate Wolfcamp 9910-20, 9963-73 and 9470-80, treat and put on production as a dual completion (Wolfcamp-Morrow).

To date this office has not received a report of this work. If it was performed please submit the completion report for the Wolfcamp Zone with all of the required attachments. If it has not been performed please submit report as to the current status of the well and future plans for same.

If you have any questions concerning this matter please feel free to call upon me.

Sincerely yours,
