Gentlemen:

Enclosed are forms C-103, C-104, and C-105 for the captioned well reporting the completion as a marginal gas well.

The C-104 is supplement to the C-104 filed 30 June 1972 requesting temporary authority to deliver gas to Llano, Inc. The completion test reported on the C-104 and C-105 is a 24-hour production test. The well is not capable of running a standard four-point test. The test reported represents the well's capacity.

We plan to produce the well for approximately 30 days to evaluate the pressure performance and the advisability of further treatment. Please notify us if any further information is required to report this completion.

Yours very truly,

MORRIS R. ANTWEIL
