17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Request one (1) year extension of shut in temporarily abandon permit currently scheduled to expire October 1, 1975.

This well has been plugged back to base of Delaware (9-331 dated 5-30-75) and is being held for possible salt water disposal purposes. Salt water production from the Drag-B and area leases will dictate the need to perforate Delaware Sand and convert this well to salt water disposal service.

This well presents no environmental hazards in its shut down status.
