17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Attempted to run bottom hole pressure test on the Atoka formation. Ran plug down tubing in order to isolate the Morrow, and the plug stuck. Propose to vent gas from the Morrow for up to 72 hrs. to remove corrosion from tubing and loosen the plug. A packer will be set at approx. 11191' and the Atoka selectively tested. Well will be returned to production. (Verbal approval received from Mike Williams by Benton Greer on 8-9-82).
