Section 5, T-23-S, R-27-E  
Eddy County, New Mexico

Dear Sir:

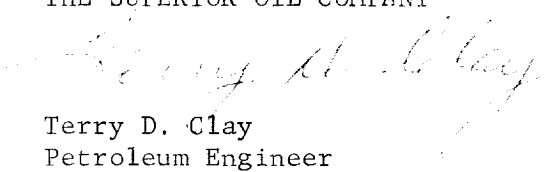

Per your letter of February 8, 1973, attached is Form C-102 Acreage Dedication plat for the Strawn Zone.

The Strawn Zone was connected January 31, 1972, however, the Morrow Zone has not been connected, to date. It will be noted from attached Form C-102, under "Field Classification," we elected to use "undesignated." We have preliminary information that the Strawn Zone may be separated from the South Carlsbad Field, and would like additional time to test and measure BHP prior to this well being placed in a Field. These tests will probably require a few months.

We plan to run a packer leakage test in the near future and will submit this information and Packer Setting Affidavit at the same time.

Yours very truly,

THE SUPERIOR OIL COMPANY

  
Terry D. Clay  
Petroleum Engineer
