All tests plus or minus sea level; all pressures psi; Bomb shall be calibrated frequently enough against a dead weight tester to ensure an accuracy of one percent and gravity shall be determined by analysis; liquid level shall be feet above datum plane. see rule 302.
* Well shall be produced at least 24 hours prior to shutting in for sonic test.

I hereby certify that the above information is true and complete to the best of my knowledge and belief.

G.E. Tate (Signature) G.E. Tate Division Operations Superintendent 6-21-84 (Date)
