District II Supervisor

NOV 19 1976

Dear Sir:

O. C. C.
ARTESIA, OFFICE

We received notice from the Santa Fe office of the New Mexico Oil Conservation Commission stating that we had not filed Form C-125 on the subject well. Phillips Petroleum Company respectfully requests an exception to the shut-in requirement on this well.

~~This well has been commingled down hole in the Atoka and Morrow formation. This down hole commingling was authorized by Order No. P-5027 dated May 22, 1975. A shut-in pressure was filed on the Morrow formation as shown on the attached Form C-125.~~

Your approval of the requested exception would be appreciated.

Very truly yours,

PHILLIPS PETROLEUM COMPANY
