IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
COMMISSION OF NEW MEXICO FOR
THE PURPOSE OF CONSIDERING:

CASE NO. 4978
Order No. R-4582

RECEIVED

JUL 5 1973

APPLICATION OF ADOBE OIL COMPANY
FOR A DUAL COMPLETION AND NON-
STANDARD GAS WELL LOCATION,
EDDY COUNTY, NEW MEXICO.

O. C. C.
ARTESIA, OFFICE

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 a.m. on May 23, 1973, at Santa Fe, New Mexico, before Examiner Elvis A. Utz.

NOW, on this 29th day of June, 1973, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Adobe Oil Company, seeks authority to complete its Smith Federal Well No. 2 at a non-standard location at a point 660 feet from the South line and 330 feet from the East line of Section 11, Township 23 South, Range 24 East, NMPM, Rock Tank Gas Field, Eddy County, New Mexico, as a dual completion (conventional) to produce gas from an undesignated Atoka gas pool through the casing-tubing annulus and from the Rock Tank-Upper Morrow gas pool through a string of 2 7/8-inch tubing with separation of the zones by a packer set at approximately 10,100 feet.

(3) That the evidence introduced at the hearing establishes that the proposed dual completion would be in the Rock Tank-Upper Morrow Gas Pool and the Rock Tank-Lower Morrow Gas Pool and not in an undesignated Atoka gas pool.

(4) That Order No. R-4456 approved an application by Adobe Oil Company for an unorthodox location in the Rock Tank-Upper Morrow and the Rock Tank-Lower Morrow Gas Pools 660 feet from the South line and 330 feet from the East line of Section 11, Township 23 South, Range 24 East, NMPM, Eddy County, New Mexico.

STATE OF NEW MEXICO
OIL CONSERVATION COMMISSION

DONE at Santa Fe, New Mexico, on the day and year herein-
above designated.
(2) That jurisdiction of this cause is retained for the
entry of such further orders as the Commission may deem necessary.

PROVIDED FURTHER, that the applicant shall take packer-
leakage tests upon completion and annually thereafter during
the Annual Shut-in Pressure Test Period for the Rock Tank-Lower
Morrow Gas Pool.
(2) That jurisdiction of this cause is retained for the
entry of such further orders as the Commission may deem necessary.
DONE at Santa Fe, New Mexico, on the day and year herein-
above designated.

(1) That the applicant, Adobe Oil Company, is hereby
authorized to complete its Smith Federal Well No. 2 at a non-
standard location at a point 660 feet from the South line and
330 feet from the East line of Section 11, Township 23 South,
Range 24 East, NMPM, Rock Tank Gas Field, Eddy County, New
Mexico, said location having previously been approved by
Order No. R-4456, as a dual completion (conventional) to produce
gas from the Rock Tank-Upper Morrow Gas Pool through the casing-
tubing annulus and the Rock Tank-Lower Morrow Gas Pool through
2 7/8-inch tubing with separation of the zones by a packer set
at approximately 10,100 feet.

IT IS THEREFORE ORDERED:

(5) That the mechanics of the proposed dual completion
are feasible and in accord with good conservation practices.
(6) That approval of the subject dual completion will
prevent waste and protect correlative rights.
