Form C-103, Report of Actual P&A Operations

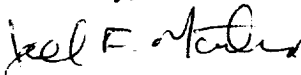

Mr. Brian Arrant  
New Mexico OCD  
811 S. First Street, P.O. Drawer DD  
Artesia, NM 88210

Dear Mr. Arrant:

Attached you will find the referenced C-103. As described on the Sundry Notice of Intent, Nadel and Gussman Permian LLC ("NGP") assumed the role of operator from National Energy Group, Inc. for purposes of abandoning the well. NGP contracted with Dawson Production Services to plug the well on a turn-key basis. E.K. Kleck of Dawson completed the attached C-103.

Please let me know if you have questions or require anything further.

Sincerely,

  
Joel F. Martin, P.E.
