Gentlemen:

According to the nearest nomenclature committee cross section log, the intervals you wish to test, fall within the Wolfcamp rather than the Penn (Cisco).

My correlations are as follows;

Wolfcamp	8,724
Penn	10,190
Strawn	10,360
Atoka	10,670
D.	10,970
Mor. ls	11,185
Mor. cl	11,445

Please correct your reports to read said formation. If you have any problems or discussion on the matter, please call me at this office.

Sincerely,

Larry Brooks
