13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Prize Operating Company purchased this well from Vista Resources, Inc effective 3-1-2000. The well has been shut-in for some time (prior to purchase) and Prize has received a 'Notice of Incidents of Noncompliance' requesting that the well either be put back on production or Plug and abandon. When Prize purchased this well there was no well equipment on the well. We would like to ask permission to test this well and flare the gas production since there is not sales equipment on the well. We would like to test the well for 2 weeks to see if the well would be economical. If the well proves to be uneconomical, we would submit the necessary paperwork to P&A the well.
