13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Prize Operating Company is currently setting production equipment and tying in a gas sales line to Duke Energy's sales system. Due weather delays in the middle of December, we were unable to set the production equipment and tie in the sales line. We anticipate that re-established gas sales will be accomplished by 1-12-2001. A new site security diagram will be submitted when all equipment is installed and functional.
