Re: Badger Unit-Federal No. 1
Sec. 15-T22S, R31E
Eddy County, New Mexico

Gentlemen:

Clayton W. Williams, Jr. respectfully submits the following development plan for drilling the above captioned well:

Development plans include the following:

- (1) Existing Roads: See attachment
- (2) Planned Access Roads: See attachment
- (3) Location of Well: 1980' FSL & 1980' FWL
Section 15-T22S, R31E
Eddy County, New Mexico
- (4) Lateral Road: See attachment
- (5) Location of Tank Battery: If the well is productive, a heater and separator will be installed on the southwest corner of the pad with tankage as required for collecting condensate and water. Location of pipeline is unknown at this time.
- (6) Location and type of Water Supply: Water will be purchased as near as possible and trucked to location.
- (7) Method of Waste Disposal: Mud pits as shown on attachment. Waste water will be trucked to appropriate disposal facilities.
- (8) Location of Camps: None
