Attention: Mr. A. L. Porter, Jr.

Gentlemen:

We respectfully request approval to dual complete the South Carlsbad Gas Com. No. 3 Well No. 1 located in Unit "C", Section 26, T-23-S, R-26-E, Eddy County, New Mexico.

It is proposed to dually complete this well in a conventional manner through parallel strings of 2-3/8" tubing with separation of the zones by use of production-type packers that will effectively prevent communication between producing zones.

By Administrative Order No. MC-2084, we were granted permission to dually complete this well in the South Carlsbad Morrow Gas Pool and the South Carlsbad Strawn Gas Pool. The Strawn was not productive; therefore, we now request permission to dually complete in the Canyon and Morrow.

By copy of this letter, we are notifying all offset operators of this application. If the offset operators have no objection to this application, we are requesting that they execute the attached waiver and forward a copy to the Oil Conservation Commission, P. O. Box 2088, Santa Fe, New Mexico 87501, and return one copy to this office.

Very truly yours,

R. E. Hammond
