Re: Texas International Petroleum Corporation's
Allied State No. 1 well
Section 10, T-23S R-26E
Eddy County, New Mexico

Dear Sir:

It is requested that Texas International be granted a testing allowable for subject well to provide for the cleanup and running of a 4-point test into the gas sales line located near the well site. The well has been completed from the Canyon zone, tubing and packer have been run and facilities are in place to allow for deliveries of gas to El Paso Natural Gas Company. The attached Form C-104 is submitted to reflect the pertinent data on the well.

Your favorable consideration of this request is solicited.

Yours very truly,

D. C. Helm
Division Engineer
