**RE: AUTHORIZATION TO TRANSPORT AND REQUEST FOR ALLOWABLE:  
For the Allied State Well No. 1, located in Section 10, Unit Letter I, Township 23 South,  
Range 26 East, Eddy County, NM**

Dear Mr. Smith,

In reference to the above well, please resubmit Form C-104, along with (5) copies to the address on the letterhead below that represents perforations that the New Mexico Oil Conservation Division (NMOCD) has latest records on. I have enclosed for you a well completion report dated May 5, 1992 that shows perforations to be 10,552-64 and 10570-74'.

Unless this well was actually plugged back, the NMOCD does not show any records indicating thereof. After receiving your forms, I will be happy to process them as soon as possible. You may fax one completed form, mail out the 'hard copies' and I will sign off on it. In closing, the NMOCD has a web-site that you can access rules and regulations, general information, data, drilling activity, etc. that you may find useful as an oil and gas operator in New Mexico. Our web-site is also provided on the letterhead indicated below.

If you have any questions, please feel free to call.

Respectfully Yours,

Bryan G. Arrant  
District II Geologist-Artesia
