Re: Subsequent Notification to the
Commission of Fire, Breaks,
Leaks, Spills, and Blowouts

New Mexico Oil Conservation Commission
Supervisor and Oil & Gas Inspector

Spencer DD
P. O. Box 1565

Butler *82210*
Albuquerque, New Mexico 87109

Gentlemen:

Listed below is the information required by Statewide Rule 116, as amended by Case No. 4945, Order No. R-4524, concerning "Subsequent Notification" to the Commission of fire, breaks, leaks, spills, and blowouts:

Field Name South Oklahoma (Harrow) & (Sunway) Date of Pollution 2-15-74

Lease or Facility Name South Oklahoma Gas Con. No. 1, Well No. 1

Location 1/4 of the NW 1/4, Section 17, T-15-S, R-15-E, Deaf County, New Mexico
(Quarter-Quarter, Section, Township, Range, County)

Distance from the nearest town or prominent landmark 2 miles south of Oklahoma

Substance Lost small amount of gas Estimated Amount Lost small amount of gas
(Oil, Cond., S.W., Gas, etc.) (Bbls., Gals., MCF)

General conditions prevailing in the area, including precipitation, temperature,

and soil conditions at approximately 3:00 p.m. on 2-15-74 Mr. Tom Hixson, supervisor for Swaco Company, was working on a Swaco choke, pressure was apparently dropped below the valve and choke and when he turned the handle, line blew off resulting in a small fire which burned him severely.

Work initiated to remedy the situation. Fire was extinguished with a fire extinguisher in 2 or 3 minutes with no damage to rig (Nobel Drilling Company).
