13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Prize Operating Company purchased this well from Vista Resources, Inc. effective 3-1-2000. The well has been shut-in for some period of time (prior to purchase) and Prize has received a 'Notice of Incidents of Noncompliance' requesting that the well either be placed back on production or Plug and Abandon. When Prize purchased this well the production equipment was not sized large enough to buck the high gas line pressure. We would like to request permission to test this well for two weeks and flare the gas to determine whether or not this well would be economical. If the well proves not to be economical, we will file the necessary paperwork to P&A the well.
