13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Prize Operating Co. respectfully request approval for "Off lease sales and measurement" for the above mentioned well. This is the only well on the lease, of which Prize purchased from Vista Resources 3-1-2000. The well was inactive and Prize had received approval from the BLM to test the well to determine if it was economical. The well has been tested and we would like to return the well to production, but there is not a gas sales line on the lease. As per the attached data sheet, Duke has a gas line just north of the Federal LL, but will not lay a gas line to the well because of the volume of gas expected to be produced. The well was tested at a rate of: 1 BCPD, 1BWPD, 50 MCFPD. Please not attached plat and explanation of request. If you have any questions or need further data, please contact me at 817-424-0454.

Site security diagram will be provided when approval is granted and facilities are finished.

**SEE ATTACHED FOR
CONDITIONS OF APPROVAL**

You must have an approved right-of-way onto Federal PP lease if you are not the operator. Please contact Realty (Irene Salas 505-627-0272) if you have questions.
