

NEW MEXICO OIL CONSERVATION COMMISSION
PACKER SETTING REPORT

Adopted
1-1-65

RECEIVED

JUL 25 1974

I, Don C. Condie, being of lawful age and having full **O. C. C.**
Name of party making report **ARTESIA, OFFICE**

knowledge of the facts hereinbelow set out do state:

That I am employed by Champlin Petroleum Company in the capacity of
District Engineer, that on June 21, 19 74

I personally supervised the setting of a Otis MH
Make & type of packer
in Champlin Petroleum Company, Nix-Yates,
Operator of well *Lease name*

Well no. 1 located in the Undesignated field,
Eddy county, state of New Mexico, at a subsurface depth of
10,288 feet, said depth measurement having been furnished me by
Pool Company;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

D. C. Condie
(Signature)

District Engineer
