Gentlemen:

With further reference to the subject matter of my letter of September 21, I have today talked with Mr. Jason Kellahin, representing Phillips, with Mr. C. E. Childers, representing International, and Mr. Frederick, representing the U. S. Geological Survey.

In view of the information developed in my conversation with Mr. Childers concerning the dates of availability of additional core information, I have decided to postpone definite action on an arbitration meeting until around the middle of November.

If there are new or additional developments I will advise each of you.

Very truly yours,

A. L. PORTER, Jr.
Secretary-Director
