Attention: Mr. L. R. Bergstrom
Oil and Gas Inspector

Gentlemen:

Reference is made to your letter dated February 12, 1975 regarding the pits at subject well which were not levelled at that time.

The location and pits are ready for your inspection. One dam that was constructed and used in drilling operations was not cut or removed because the X Bar Ranch personnel requested that the dam remain for their use as a watering tank after their installation of a windmill on the location. As you are aware, the hole was turned over to the X Bar Ranch at a depth of 450' for their use as a water well.

If we can be of further assistance, please let us know.

Yours very truly,

ALEX CLARKE, JR.
